

Doug Howard

What does financial well-being look like? At Wealth Teams Alliance, we know everyone's view of financial well-being is truly unique, which is why every strategy we develop meets our client's set of specific needs, objectives, outlooks and long-term goals. Wealth Teams Alliance is a group of experienced fiduciaries helping investors reach their goals with a time-tested process built on six decades of academic research and five Nobel Prizes.

Doug Howard moved to California in 1977 and entered the life insurance industry. Over the years, he earned his Bachelor of Science Degree of Organization Behavior in Organizations from The University of La Verne.

Other organizations employed Doug to improve relationships between the engineering and manufacturing divisions of their companies, and he earned engineering certifications solving a variety of problems related to production, design, and manufacture of their products. Some of these products include Stinger Missel, machine to EDM weld flights onto Patriot Missell, computer peripheral equipment, exercise equipment, off road heavy equipment conveyance, and many more.

In March 2000, Doug opened his own insurance company to help people to improve their quality of life by planning and protecting their assets, health and income, with insurance products.

Today, at Wealth Teams, Doug focuses on the needs of business owners to provide for their employees, exit strategies for themselves, and opportunities to save on tax liabilities; to themselves and their companies.
